

- a. **Require Community Advisory Boards:** One board overseeing all broadcasters in that area. Appointed individuals who may not be friendly to the Christian mission of the station.
- b. **Require Additional Staffing:** Adding tens of thousands of dollars in additional monthly expense to each affected station (even including some of our smaller facilities which ultimately might force us to leave the air in some areas).
- c. **Force Many of Our Translator Stations Off The Air:** This rule would give priority to many new Low Power FM stations (LPFM) rather than existing translator stations. This means many of our translators would no longer be able to carry K-LOVE programming.

I am a K-Love supporter and listener and would not want to see any law that could interrupt this.

The first requirement that would have a single board for rap, rock, country, easy listening, talk- radio and Christian stations seems impossible to me. The diversity needed for this board would guarantee nothing would be accomplished. If you didn't have a diversified board you open the FCC up to unlimited complaints.

The second requirement for staffing seems best dealt with by the radio stations themselves. If a radio station can handle more with less or with volunteers why not.

The third requirement seems ridiculous as there are many syndicated stations that would be put off the air while the FCC has no guarantee of new LPFM stations wanting to take over these bands. Also the FCC has no guarantee that anyone would want the new stations while you know the K-Love stations have large listening audience.

Once again I want to state please do nothing to interrupt a much listened to and needed station.

Thank You for your time,  
Sandra Olson
